Kennel Inspection

Remarks

***Actions which are directed to be taken are not all that may be required of the kennel operator to come into compliance.
The kennel operator is responsible for taking any and all actions necessary to come into compliance.***

Inspection of the kennel took place on March 8, 2017. Inspection was performed with Supervisor Howarth, Dr. Ward, and Warden Frey. A total of 28 adult dogs and 3 puppies were located on the premises at the time of inspection. The 2017 application is pending review and approval.

The inspection of March 8, 2017 is as follows:

206(a): In 2016, the kennel transferred more than 60 dogs; therefore, the kennel violated its license type and operated commercially.

This Warden directs that the kennel owner takes the following action(s):

Apply for and obtain the correct kennel license, a commercial license type.

21.21(a) / 207(b): Wardens observed chewed sharp edges on old dog houses located in the outside kennel area.

This Warden directs that the kennel owner takes the following action(s):

Indoor and outdoor housing facilities for dogs shall be maintained in a manner to protect the dogs from injury and to contain the dogs.

21.21(b) / 207(b): Wardens observed openings to dog houses with exposed unsealed wood rendering them no longer water resistant.

This Warden directs that the kennel owner takes the following action(s):

The interior building surfaces of housing facilities shall be constructed and maintained so that they are water resistant and may be readily sanitized.

21.21(c) / 207(b): Wardens observed standing water in several outside exercise pens.

This Warden directs that the kennel owner takes the following action(s):

Adequate drains shall be provided to rapidly eliminate excess water from housing facilities.

214:Wardens observed that there were no health certificates available in the kennel records for two dogs (Maggie and Juliet) brought into the kennel from outside the Commonwealth.

This Warden directs that the kennel owner takes the following action(s):

Any dog brought into the Commonwealth from out-of-state shall be accompanied by a health certificate prepared by a licensed doctor of veterinary medicine. The certificate shall show that dog is at least 8 weeks of age and shows no signs or symptoms of infectious or communicable disease; did not originate within an area under quarantine for rabies; and has not been exposed to rabies within 100 days of importation.

455.8: Wardens observed an expired Rabies Vaccination record for dog named Felicity; the certificate expired in July 2016.

This Warden directs that the kennel owner takes the following action(s):

All dogs 3 months and older must have a current rabies vaccination.
