Commonwealth of Pennsylvania Dog Law Enforcement Office Kennel Inspection

Remarks

Actions which are directed to be taken are not all that may be required of the kennel operator to come into compliance. The kennel operator is responsible for taking any and all actions necessary to come into compliance.

The inspection of the kennel took place on July 9, 2019. There were 124 adult dogs and 0 puppies located on the premises at the time of this inspection. There were 43 adult dogs and 1 puppy listed in rescue kennel network homes at the time of this inspection. The 2019 kennel license was viewed along with the state forms exemption letter. The inspection was performed with State Veterinarian, Dr. Ward.

The inspection of July 9, 2019 is as follows:

207(b) / 21.29(c) - Housekeeping/Pests:

Warden observed the back corner area by the loading dock was cluttered with debris which included food that was not in containers, used gloves, and other trash, this type of situation could encourage mammalian pests. Warden observed rodent feces on the floor along the building walls and underneath the primary enclosures. Underneath one row of enclosures there was an accumulation of food, kong toys, and other debris. This row of enclosures had already been cleaned for the day. In the three smaller outside exercise yards grass and weeds that were as high as this warden's knees in some areas were viewed, this can encourage insects such as fleas and ticks to be present.

This warden directs that the kennel operator take the following action(s):

The buildings and grounds of kennels shall be maintained, kept clean and in good repair to protect the animal from injury and to facilitate practices required by this chapter. Kennels shall have an effective program that controls ingress by insects, ectoparasites and avian and mammalian pests. Evidence of insects, ectoparasites and avian and mammalian pests or conditions that would allow or encourage infestation in a kennel are indicative of an ineffective program and unsanitary environmental sanitation in the kennel.

402(d):

A veterinary examination was ordered on a dog under section 402(a) based on warden's observations of the condition of dogs during inspection. Kennel is in compliance with section 402(d) because veterinary examination was completed within the 72 hour time frame.

**A follow-up inspection will take place at a later date and time.
