Remarks

***Actions which are directed to be taken are not all that may be required of the kennel operator to come into compliance.
The kennel operator is responsible for taking any and all actions necessary to come into compliance.***

The inspection of the kennel took place via search warrant on July 18, 2019. There was a total of 46 adult dogs and 7 puppies located on the premises at the time of this inspection. The rabies certification letter was viewed. This inspection was conducted with KCS Frey and State Veterinarian Dr. Ward.

The inspection on July 18, 2019 is as follows:

Act 207(c) / Regulation 21.41(a) -

Wardens viewed records from the year 2017/2018 that were inaccurate and did not match several receipts that were found during this inspection. Wardens found bills of sale which reflect 4 additional dogs sold in 2017 over the 62 dogs noted on the kennel records.

This Warden directs the kennel owner to take the following action(s):

Records to be maintained.--Every keeper of a kennel shall keep, for two years, a record of each dog at any time kept in the kennel. Such record shall show:

- (1) The breed, color, markings, sex and age of each dog.
- (2) The date on which each dog entered the kennel.
- (3) The full name and physical address at the time the dogs were received of the previous owner or kennel from whom the dog was received. This paragraph shall not apply to a boarding kennel.
- (4) The full name and physical address of the person or kennel to whom the dog belongs.
- (5) For what purpose each dog is kept in the kennel.
- (6) The date on which each dog leaves the kennel.
- (7) How the dog is dispensed. If the dog was transferred to another person or kennel, the record must state the full name and physical address of the person or kennel to whom the dog was dispensed.
- (8) The name, address and telephone number of the licensed doctor of veterinary medicine used by the kennel. Such record shall be legible and shall be open to inspection and may be copied by any employee of the department, State dog warden or police officer as defined by this act.

Complete records shall be kept on dogs within a kennel or being transported in a primary conveyance as prescribed by section 207 of the act (3 P. S. § 459-207), and the records shall be kept at the kennel location or, when applicable, shall accompany dogs being transported.

Act 220-

A search warrant was obtained and executed at the kennel premises due to the failure of the kennel owner to allow an inspection after being issued an order of inspection notice 2 days prior (July 16, 2019).

This Warden directs the kennel owner to take the following action(s):

Violation.--It shall be a violation of this act if a kennel refuses entry to an agent of the Commonwealth acting to enforce this act. The term "refusal of entry" shall include any of the following:

- (1) Preventing an agent from entering the establishment.
- (2) Preventing an agent from inspecting a dog.
- (3) Hiding a dog from an agent.
- (4) An act or omission that prevents an agent from gaining entry to the establishment.

Act 402(d) -

The kennel owner complied with the 72 hour vet check ordered during this inspection.

Act 801 -

Wardens viewed records from the year 2017/2018 that were inaccurate and did not match several receipts that were found during this inspection. Wardens found bills of sale which reflect 4 additional dogs sold in 2017 over the 62 dogs noted on the kennel records.

This Warden directs the kennel owner to take the following action(s):

It is unlawful for any person knowingly to make any false statement or to conceal any fact required to be disclosed under any of the provisions of this act.

**A re-inspection will be conducted at a later date.
